

FINANCE, OIL AND GAS

New York

NEW YORK, Jan. 28.—The noteworthy feature of a listless stock market was the absolute indifference manifested by its firm to strong tone to the further demoralization of the international credit situation.

Foreign exchanges were again in the throes of unsettlement, rates on London and all the principal continental ground, especially steels, equipments, motors and oils. Extreme gains in all points dropping to levels of impairment never before recorded. The extent of the collapse may be gauged from the fact that it encompassed the most of the so-called "neutral" countries, including Scandinavian centers hitherto relatively exempt.

In substance the further crash was again ascribed more directly to the policy of credit contraction upon which the Federal Reserve Board recently embarked. This now appears to be making itself felt in American bank loans to European buyers of our merchandise.

Stocks that have been most conspicuous since last Saturday's unexpected rally were again in the fore-classes extended from 2 to 7 points.

Other features of strength included food and chemical issues, metals, ship pings and tobaccos, the latter improving on the stock dividend declared by United Cigars. For all practical purposes the railway list ceased to exist, dealings in that quarter being the smallest proportions.

Pittsburgh

PITTSBURGH, Pa., Jan. 28.—On the Pittsburgh exchange, Barnsdall Corporation advanced to and closed at 55 bid. This is the highest price ever quoted for the stock and a net gain of 4 1/2 for the day. Considering the extent of the advance this week the amount of stock changing hands was comparatively light. Arkansas Gas was active and at one time sold as high as 31. The close at 30 represented a gain of \$2 for the day. Guffey Oil on light trading declined from 35 1/2 to 34 1/2, and closed at the lowest. More than 3,100 shares of Marland Refining changed hands within the narrow range of 5 1/2 to 5 3/4. Kay County was quiet at 17 1/2 to 2, and the remainder of this group was dull but steady.

Westing House was firmer at 53 1/2 to 53 3/4, but there were no transactions in or quotations of Air Brake. Glass stocks were extremely dull, with no real change in prices. Dealings in bonds were more active, a feature being the sale of \$10,000 Pittsburgh Junction Railroad 6s at par.

Oil and Gas.

The advance in the crude market to \$5.25 is sure to stimulate development work in all eastern fields. When weather is favorable there will be a general revival to say nothing of the effort to find new producing territory. The search will be carried into all sections where there is a chance for strictly new territory.

On Broad Run, McClelland district, Wetzel county, W. Va., the Hope Natural Gas Company has drilled its test on the G. W. Swiger farm into the Gordon sand. It is a strong gasser, spraying a little oil. This well is a wildcat, two miles southeast of the Carnegie Natural Gas Company's No. 3 on the Marshall Ash farm. In the same district the Carter Oil Company's No. 4 on the Freeman Underwood farm is an eight-barrel pumper in the same formation.

the Hope Natural Gas Company has a gasser in the Gordon sand at a test on the Isaac Smith farm. It will be given a shot. In Lafayette district, Pleasants county, the American Oil Development Company has a small show of gas in the Keener sand at its test on the H. M. Brammer farm. It is now drilling in the Big Injun sand.

In Union district, Wood county, the Snyder Oil Company has a duster in the Berea grit at a test on the Smith farm. In Murphy district, Ritchie county, the Hope Natural Gas Company has a gasser in the Big Injun sand at a test on the F. H. Hefner farm. In the same district the same company's test on the W. F. Shodgrass farm has filled up 1,900 feet with fluid. It will be shot. The same company is testing in the Mason sand No. 1 on the W. H. Tavis farm.

The United Fuel Gas Company's test on the Ira S Taylor farm in Walton district, Roane county, is a gasser in the Big Injun sand. In Sheridan district, Calhoun county, the Hope Natural Gas Company has drilled its test on the Levi H. Stump farm through the Big Injun sand. It is a light gasser. In Washington district, Jackson county, the Carter Oil Company has put its test on the Daniel Evans farm to pumping in the salt sand. It is producing 10 barrels a day. In the same district the same company has a five-barrel pumper in the salt sand at a test on the A. B. Cato farm.

In Burning Springs district, Wirt county, the Leviathan Oil Company has rig material at a location on the C. W. Roberts farm. In Union district, Wood county, the Kentucky Oil Company is fishing at its test on the Frederick Roth farm. In Spencer district, Roane county, the Carter Oil Company has a rig up on the A. M. Hersman farm. In the same district the United Fuel Gas Company has rig material at a location on the E. H. Epling farm. In Curtis district, Roane county, the Ohio Fuel Oil Company has started to drill No. 3 on the N. E. Board farm.

The local fields are completing nothing better than light pumps. In the Ingomar field, Allegheny county, the South Penn Oil Company's No. 9 on the John Warren farm is not good for more than three barrels a day. In the same district O. N. Carey & Co. have a two barrel pumper at a test on the Jacob Willey farm. Mellon & Pollock have started to drill a test on the James Baughman farm. Robinson and Co. are drilling a test on the George Elchley farm. Local parties are rigging up on the Grandeur farm.

Grain and Produce

CHICAGO, Jan. 28.—Firmness developed in the corn market yesterday after an early decline. One of the reasons for the rally was a bullish construction put upon the trade review of the Federal Reserve Bank here. The
